

RoHS Compliance

The parts which Allegro MicroSystems, Inc. sell comply with the requirements of EU-Directive 2002/95/EC (RoHS) on the restriction of the use of certain hazardous substances in electrical and electronic equipment (lead, cadmium, chromium VI, mercury, polybrominated biphenyls (PBB's), and polybrominated diphenyl ethers (PBDE's)), if purchased in the lead-free version. With the exception of a few parts such as current sensors, a "-T" is added at the end of the part numbers to designate the parts as RoHS compliant.
