

Dear Marvell customer,

Marvell Semiconductor supplies products globally; it is committed to ensure we are in compliance with environmental regulations and standards as required internationally. As such, Marvell is working with its customers to comply with RoHS and REACH EU directives.

Although Marvell is a fabless semiconductor company utilizing assembly sub-contractors for all the packaging needs, we are working very closely with them to ensure all parties of the supply chain are in compliance with REACH policy. Marvell is committed to comply with EU's REACH regulation and support customer requirements.

Additional inquiries may be made by email to Jimmy Albinto, jalbinto@marvell.com and Edward Chan, echan@marvell.com.

A handwritten signature in black ink, appearing to read 'Morris Wu, Ph.D., Patel Pramod'. The signature is written in a cursive style and is positioned above a horizontal line.
